
DFT/QE — SCF warning; diagnostic | uncertainty bands withheld | failure shown as ×
ghosted spheres = real retained path-image overlay; α encodes image overlay order only, not uncertainty/error
× FT-MultiT seed 123: MODEL_LOAD failure on all three paths
Foundation
From-scratch
FT-600K
FT-MultiT
DFT/QE — SCF warning; diagnostic
nonconverged / diagnostic status
Foundation checkpoint variant (not seed)
seed 234
seed 345
uncertainty band — withheld
failure / no numeric profile
seed 123
Fixed-path NEB profiles — provisional diagnostic candidate
within gap

withinQL
relative energy, ΔE (eV)
normalized reaction coordinate, s (0–1)
ΔE_i = E_i − E_0; ten retained images connected directly
